EXPERIENCE

Full-stack Developer | INCOM Saigon — Mobile Marketing Solutions

Jan 2024–Present | Ho Chi Minh City, Vietnam

- Maintain and improve production web systems, resolving frontend and backend issues across existing codebases.
- Develop modules and features across UI, REST API, and database layers using .NET / ASP.NET Core, EF Core, LINQ, SQL Server, and service-based architecture.
- Extend existing JWT/claims-based authorization flows and build or test APIs through Swagger/OpenAPI.
- Improve data access with Include/ThenInclude, reduce redundant SaveChanges calls through Unit of Work, and keep business logic easier to debug or replace.
- Work with GitLab CI/CD pipelines configured by the team, Docker-hosted local SQL Server, and Azure SQL databases.
- Improve layout, spacing, responsive behavior, and interface details while preserving product requirements and maintainability.
- Collaborate with teammates to clarify requirements, test changes, and communicate progress or blockers transparently.

Web Development Intern | INCOM Saigon — Mobile Marketing Solutions

Sep 2023–Nov 2023 | Ho Chi Minh City, Vietnam

- Supported web module development and maintenance with ASP.NET MVC, HTML, CSS, JavaScript, Bootstrap, and SQL.
- Assisted with bug fixing, UI implementation, testing, and learning the structure of an existing codebase.

SELECTED PROJECTS

MDOP | Concept Product Implementation | [Live Demo](#)

- Built a polished React / Next.js vehicle-discovery experience with responsive imagery, interactive comparison flows, state persistence, browser guards, accessible interaction, and reduced-motion support.

THÈM GÌ CŨNG CÓ | UI / Product Implementation | [Live Demo](#)

- Implemented a mobile-first Vietnamese food-brand concept with clear visual hierarchy, food-led imagery, responsive menu discovery, store access, and ordering-focused calls to action.
